Project Name	Voice-Based Concept Understanding Analyzer
Maximum Marks	1 Mark

Project Demo Planning

This document outlines the complete demonstration plan for the **Voice-Based Concept Understanding Analyzer**. The demonstration is organized to present the problem statement, solution overview, live system execution, feature demonstration, report generation, and final discussion in a clear and structured manner.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Explain the problem statement, objectives and project motivation.	2	Self
2	System Overview	Present the architecture, workflow and technology stack.	3	Self
3	Live Demonstration	Upload audio, perform speech analysis and display evaluation results.	5	Self
4	PDF Report Generation	Generate and download the performance report.	2	Self
5	Project Features	Explain semantic analysis, waveform visualization and scoring system.	3	Self

6	Questions & Answers	Answer evaluator questions and conclude the presentation.	3	Self
---	---------------------	---	---	------

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce the project and explain the motivation behind the solution.
2	Solution Overview	Describe system architecture, modules and technologies used.
3	Live Feature Demonstration	Show audio upload, AI analysis, waveform visualization and PDF generation.
4	Q&A Session	Clarify questions, discuss future enhancements and conclude the demonstration.
